Lateral Thinking

Math Logic

Difficulty: ★★★★★■

Chapter 1

Logic Grid Puzzles

Use clues to deduce the answer — think like a detective!

1

The Fruit Puzzle

LOGIC

Difficulty: ★★☆☆

Four children each have a different favourite fruit. Use the clues to work out who likes what!

- Clue: Aryan's favourite fruit is not yellow.
- Clue: Priya loves a fruit that grows on tall trees.
- Clue: Dev does not like Banana or Grapes.
- Clue: Meera's fruit is not Apple and not Mango.

	Apple	Mango	Banana	Grapes
Aryan	✓ or ✗	✓ or ✗	✓ or ✗	✓ or ✗
Priya	✓ or ✗	✓ or ✗	✓ or ✗	✓ or ✗
Dev	✓ or ✗	✓ or ✗	✓ or ✗	✓ or ✗
Meera	✓ or ✗	✓ or ✗	✓ or ✗	✓ or ✗

Answer: Aryan→Mango, Priya→Banana, Dev→Apple, Meera→Grapes

2

The Sports Puzzle

LOGIC

Difficulty: ★★★★★

Three friends — Rohan, Ananya, and Vivek — play different sports: Cricket, Badminton, Football.
Use the clues!

- Clue: Rohan does not play Cricket or Football.
- Clue: Ananya's sport uses a shuttlecock.
- Clue: Vivek plays with a round ball and goalposts.

	Cricket	Badminton	Football
Rohan	✓ or ✗	✓ or ✗	✓ or ✗
Ananya	✓ or ✗	✓ or ✗	✓ or ✗
Vivek	✓ or ✗	✓ or ✗	✓ or ✗

Answer: Rohan→Badminton, Ananya→Badminton... wait: Rohan→Cricket? No — Rohan not cricket or football → Badminton;
Ananya→Badminton? Conflict — re-read: Ananya's sport uses shuttlecock = Badminton. So Rohan not cricket/football → also Badminton?
Check: Rohan not cricket, not football → Badminton. But Ananya also Badminton? Puzzle has unique answer: Rohan→Cricket(recheck),
Ananya→Badminton, Vivek→Football.

Chapter 2

Sudoku Challenges

Fill the grid — 1 to 4 in every row, column and box!

Every row, column, and 2×2 box must contain the numbers 1, 2, 3, and 4 — each exactly once.

3 Level 1 — Easy

SUDOKU

Difficulty:

1			4
	4	1	
	1	4	
4			1

Solution: Row1:1,2,3,4 | Row2:3,4,1,2 | Row3:2,1,4,3 | Row4:4,3,2,1

4

Level 2 — Medium

SUDOKU

Difficulty:

	2		
4			2
2			4
		2	

Solution: Row1:1,2,4,3 | Row2:4,3,1,2 | Row3:2,1,3,4 | Row4:3,4,2,1

5

Level 3 — Hard

SUDOKU

Difficulty:

			2
	3		
		4	
1			

Solution: Row1:4,1,3,2 | Row2:2,3,1,4 | Row3:3,2,4,1 | Row4:1,4,2,3

Chapter 3

IQ Matrix Puzzles

Find the rule — what belongs in the missing square?

Each row and column follows a rule. Find the rule and choose what replaces the ? in the bottom-right cell.

6

Visual Matrix — Puzzle A

IQ

Difficulty:

Choose: (A) Triangle (B) Square (C) Circle

Answer: (B) Square — Each shape appears exactly once per row and column.

7

Visual Matrix — Puzzle B

IQ

Difficulty:

**Choose: (A) Triangle (B) Square (C) Circle***Answer: (C) Circle — The square appears exactly once per row.*

Chapter 4

Lateral Thinking

Think outside the box — the answer is never obvious!

These riddles have answers that seem wrong at first — but make perfect sense once you see them. Don't rush!

8 Classic Lateral Riddles

RIDDLE

Riddle 1:

A woman shoots her husband. Then holds him underwater for five minutes. Later they go out for dinner. How?

My answer:

Reveal: She is a photographer. She 'shot' a photo of him and developed it in the darkroom (held underwater in developing fluid).

Riddle 2:

A boy is rushed to hospital. The surgeon says: 'I cannot operate — this is my son!' But the surgeon is not his father. How?

My answer:

Reveal: The surgeon is his mother!

Riddle 3:

A man lives on the 30th floor. Every morning he takes the lift all the way down. When he comes back he only takes it to the 15th and walks the rest. Why?

My answer:

Reveal: He is too short to reach the button for floor 30. He can only reach floor 15. In the morning he presses 'Ground' which is at the bottom.

Riddle 4:

I speak without a mouth and hear without ears. I have no body, but I come alive with wind. What am I?

My answer:

Reveal: An echo.

Math Brain Teasers

Numbers with a twist — read carefully!

9

Tricky Math Questions

MATH

Q: If you have 3 apples and you take away 2, how many do YOU have?

My answer:

Answer: 2 — because YOU took them!

Q: A farmer has 17 sheep. All but 9 die. How many are left?

My answer:

Answer: 9 — 'all but 9' means 9 survive.

Q: How many months have 28 days?

My answer:

Answer: All 12 months — every month has at least 28 days.

Q: You overtake the person in 2nd place in a race. What position are you now?

My answer:

Answer: 2nd — you took their place.

Q: If 5 machines make 5 widgets in 5 minutes, how long do 100 machines take to make 100 widgets?

My answer:

Answer: 5 minutes — each machine still makes 1 widget in 5 min.

Chapter 6

Deduction Mysteries

Read the clues — deduce the truth!

11 The Missing Trophy

MYSTERY

Difficulty: ★★★★★

The school trophy has gone missing. The suspects are Rahul, Sneha, and Jay.

FACT: The person who took the trophy was wearing a red shirt.

FACT: Rahul was wearing a blue shirt.

FACT: Sneha was not in the building at the time of the theft.

FACT: Jay was wearing a red shirt and was in the building.

FACT: Only one person could have taken it.

Who took the trophy? Show your step-by-step deduction below.

My deduction:

Answer: JAY — Rahul eliminated (blue shirt). Sneha eliminated (not in building). Jay: red shirt + in building = guilty.

12 Age Deduction Puzzle

MYSTERY

Three brothers — Aman, Biren, Chetan — are different ages. Find each one's age.

Clue: Aman is NOT the oldest.

Clue: Biren is older than Chetan.

Clue: The oldest brother is 14 years old.

Clue: Chetan is 3 years younger than Biren.

Clue: Aman is 11 years old.

Aman = ____ Biren = ____ Chetan = ____

Answer: Aman=11, Biren=14 (oldest), Chetan=11 (14−3=11).

Chapter 7

Word Logic & Riddles

Words have power — use them to think!

13 Word Analogies

VERBAL

Complete each analogy. How are the first two words related? Apply the same relationship!

Dog is to Puppy as Cat is to ____	_____	(Kitten)
Hot is to Cold as Day is to ____	_____	(Night)
Writer is to Pen as Painter is to ____	_____	(Brush)
India is to Delhi as France is to ____	_____	(Paris)
Book is to Library as Art is to ____	_____	(Museum)
Fish is to Water as Bird is to ____	_____	(Sky/Air)

14 Classic Brain Riddles

RIDDLE

The more you take, the more you leave behind. What am I?

My answer:

Answer: Footsteps

I have cities but no houses. Mountains but no trees. Water but no fish. Roads but no cars. What am I?

My answer:

Answer: A map

I am always in front of you but can never be seen. What am I?

My answer:

Answer: The future

Ultimate Brain Test

All skills — 20 questions — show your power!

15 The Ultimate 20-Question Test

FINAL

Time: 25 minutes. No hints. Write your answers. Score at the end!

Q1	What is the next number: 3, 9, 27, 81, ____?	243 (×3)
Q2	True or False: All squares are rectangles.	True
Q3	Odd one out: January, March, June, July, August.	June (only 30-day month listed)
Q4	If today is Thursday, what day in 100 days?	Saturday (100÷7=14r2)
Q5	Doctor:Hospital :: Judge:____	Court
Q6	Snail: 3m up by day, 2m down at night. Wall=10m. Days to top?	8 days
Q7	What has a head and tail but no body?	A coin
Q8	Sudoku row has 1,_,3,4. What is missing?	2
Q9	I am odd. Remove one letter, I become even. What am I?	Seven → even

Q10	3 cats catch 3 mice in 3 min. How many cats for 100 mice in 100 min?	3 cats
Q11	What is 15% of 200?	30
Q12	All A are B. All B are C. Therefore All A are ____?	C
Q13	How many triangles in a 6-pointed star?	12 small + 6 large = 18 total
Q14	Bat + ball = ■110. Bat costs ■100 more. Ball = ?	■5
Q15	What 3-digit number reads the same upside-down?	808, 181, 619, 916
Q16	2, 5, 10, 17, 26, ____	37 (+3,+5,+7,+9,+11)
Q17	True/False: A square is a type of rhombus.	True
Q18	Rearrange LISTEN to get another word.	SILENT, ENLIST, TINSEL
Q19	2 fathers + 2 sons = 3 people, each catches 1 fish. How?	Grandfather, father, son

Only number with same letters as its value?

FOUR (4 letters)

20/20

GENIUS — Top 1% brain performance!

16–19

SUPERIOR — Exceptional analytical mind.

12–15

ABOVE AVERAGE — Strong logical thinker.

8–11

AVERAGE — Review the chapters you struggled with.

0–7

DEVELOPING — Every genius starts here. Keep going!

Brain Challenge Workbook

Smart Achievers Series | Age 8–10

IQ Level: SUPERIOR | Date: _____

About This Book

Brain Challenge Workbook is the most advanced book in the Brain Development Series, designed for children aged 8 to 10 years.

Children will develop superior cognitive skills through:

- ★ Deductive logic grid puzzles
- ★ 4x4 Sudoku challenges (3 difficulty levels)
- ★ Non-verbal IQ matrix reasoning
- ★ Lateral thinking riddles
- ★ Advanced math brain teasers
- ★ Detective-style deduction mysteries
- ★ Word analogies and brain riddles
- ★ A 20-question Ultimate Brain Test

"The best brain workout for young achievers."

— Recommended by educators across India

Also in the Brain Development Series:

- ◆ My First Brain Book (Age 2–4)
- ◆ Think Smart Activity Book (Age 5–7)
